 ***** PRESIDENT'S PREAMBLE *****

I hope all Maryland Token & Medal Society members are enjoying the summer. Remember, as you travel around the state on vacation, keep a sharp eye out for tokens and medals. Take those new finds and write a short article for the MD TAMS Journal or bring the item to the next meeting for show and tell. Speaking of the next meeting, unfortunately we had to cancel this year's Swap Meet in September at Grace United Methodist Church because of ongoing church renovation work. Rearranging meetings is the main reason why this issue of the MD TAMS Journal was delayed. The Swap Meet will resurface next year (2001). Our next meeting will be **19 August at North Point State Park**. This is the location of old **Bay Shore Park**. We will have a slide presentation and short walking tour remembering earlier days at the park. Bring a picnic lunch if you like. We will reserve several picnic tables. The slide presentation will be held in the visitor's center. Come early & make a day of it. Park directions can be found below.

Included along with this Journal is the fifth in our series of new reference documents: "Maryland Tokens From The Patrick Mint 1976-1979". I prepared this short reference which should be a good example that each and everyone of you are capable of documenting some area of your Maryland token & medal collecting interests. You are capable BUT are you willing? I hope so because we need your help. If you do not have a computer, we can arrange for someone to get the data entered - - you just need to write the article. For those of you who could not attend the annual meeting held at the May 2000 MSNA Convention, you missed a great meeting. We presented annual awards to some very deserving folks: **MEMBERSHIP AWARD: Jim Boswell; LITERARY AWARDS - BEST ARTICLE: Mill Hajek; RUNNER-UP ARTICLE: Jim Shipley; and NEW AUTHOR: Bob Ruby.** Millard Hajek also won the Maryland Token & Medal Society award presented for the best exhibit on Tokens & Medals at the MSNA Convention. If you missed his exhibit on Oyster & Fruit Packing Tokens you missed a real treat! I am also glad to announce that the first, five state, allocation of our elongated quarters that I discussed in the last Journal is **SOLD OUT**. We now have a commitment to buy all fifty sets of the elongated MD TAMS fifty state quarter series. Thanks to all who participated and thanks to Mill Hajek for doing the accounting, distribution and printing of the inserts.

From Your Editor

Will Mumford

Getting a book published is not the easy task I once thought it would be. You write the text, get the photos lined up and turn it over to the publisher...right! Well as it turns out it is a whole lot more...Edit...select type style and size...edit...layout with graphics...edit again...photo credits...add a little more text...edit another time...add another photo...change layout...edit again...cover design...back cover design...ISBN number...Library of Congress number...new cover design...one more edit...and ready to go... whew! It's been an education to say the least. But I'm glad to say it has been sent to the printer! We should have the picker check book by the end of August...

The Patrons...some of which are MDTAMers...will be the first to receive their books and the only ones to get a hard cover copy. Anyway, it shouldn't be much longer and *Strawberries, Peas and Beans: Truck Farming in Anne Arundel County* will be available with listings of over 1500 varieties of Pickers' Checks...

By the way my other book *Barter, Bits, Bills and Tobacco, the Story of Money in Early Maryland* being published under a grant by the Maryland State Archives is also moving ahead. You thought the Pickers' Check book was slow...this book has been in the hands of the Archives for more than two years! It is all tied up in grant politics, but I am now told that I should get all the photos lined up as it is moving forward after eight new editing jobs! Seems the Archives thinks it should be a book on Maryland colonial economics rather than money. And much has been lost in the process. My original 50 pages has been edited down to 30 pages. Too bad as much good material has been edited out or placed in footnotes. Such is the life of a writer...my next volume will be fiction with no footnotes! And I'll edit it myself and leave what I want to say as is!

Which reminds me...we need more articles for your *MDTAMS Journal*. Whip something out and I promise it won't be delayed by the editor. I hope you are enjoying your summer.

WYOMING TRADE TOKENS

By Lee Bowker & Leroy Lengner

Book Review by Curtis H. Judge

A new state oriented catalog covering Wyoming Trade Tokens has recently been issued by Lee Bowker and Leroy Lengner. The volume is spiral bound with heavy plastic covers. Pages are printed on heavy quality paper stock and numerous high quality photographs of the tokens are included.

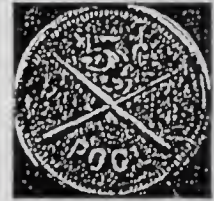

Wyoming has never been heavily populated so tokens from the state are not as plentiful as many other states. The earliest tokens known from what is now the state of Wyoming are from the Dakota Territory. These are among the most desirable to collectors, but are not necessarily the rarest. The towns of Casper and Cheyenne are the largest population centers and also have the largest concentrations of tokens.

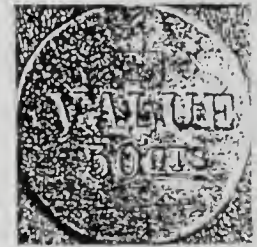

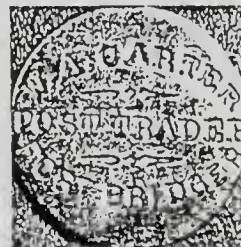

The authors concentrated on merchant tokens in this reference. Other types of exnumia such as transportation, wooden nickels, elongateds and masonic are not cataloged. Each token is given its own catalog listing consisting of town number, and individual token number for easy identification. A complete description of each token is provided including size, wording and

metallic or other composition. A rarity guide is given for each token based on number currently known to be in collections.

The authors list tokens from almost 200 towns within the state. The exact number of tokens listed is not given, but the reviewer estimates that at least 4000 are referenced in the works 400 pages. When known detailed background information is given on the merchants and their years of operation. Many of the places of business are illustrated through old photographs or post cards.

A maverick index is included for ease of locating those elusive types of tokens. This volume is a quality effort, and would be a worthy addition to any exnumia library. The reviewer wishes that a hard back version had been offered of this limited edition work. Autographed copies are available.

Copies are available at \$50.00 postpaid

MARYLAND TOKENS FROM THE PATRICK MINT 1976-1979

Most token collectors have seen them and I bet many of you even have a few. Around the time of the United States Bicentennial in 1976, the Patrick Mint in California produced an extremely interesting series of tokens. Mr. Jesse Patrick provided the advertising and Numismatic communities with a rare and unique opportunity. He offered individuals and businesses the chance to design and have low cost tokens minted for their use. He offered several stock, obverse dies and took the reverse die design (text only) sent in by the individual or company and combined the two to produce 1,000 or more bronze tokens. If the buyer purchased 1,000 or more pieces, they were given all the pieces for distribution. If the order was for less than 1,000 peices, 1,000 were produced with the Patrick Mint keeping the remainder. In the Maryland group there were 23 different advertisers who combined to produce 28 unique tokens, making this a reasonable goal for the interested Maryland token collector. What follows is a listing of the Partick Mint tokens in this interesting series issued by Marylanders. I recently purchased a partial set of 19 tokens from Mr. Patrick in response to an advertisement from the Patrick Mint (see later note).

OBVERSE IMAGES

The Patrick Mint had twelve different obverse dies for the 1976-1979 series. Maryland tokens used seven of these designs:

EAGLE: Eagle (full view) holding branches, looking right, no words.

EAGLE ON SHIELD: Eagle (full view) on shield, looking right surrounded by words - United States 1776 1976 Bicentennial.

INDEPENDENCE HALL: Picture of the building surrounded with words - United States Bicentennial 1776-1976.

1976 INDIAN HEAD: Indian looking left, no stars, surrounded by words - United States Bicentennial 1776-1976.

1977 INDIAN HEAD: Indian looking left, surrounded by 13 stars and text: " U.S.A. 1977 U.S.A.".

1978 INDIAN HEAD: Indian looking left, surrounded by 13 stars with date 1978.

1979 INDIAN HEAD: Indian looking left, surrounded by 13 stars with date 1979.

NOTE: Issues annotated with an asterisk before the obverse design (* OBV:) indicate that the entire issue was purchased by the advertiser and no stock was retained by the Patrick Mint. Other issues had purchases of less than 1,000 pieces and the Patrick Mint retained the rest.

Some local footnotes - One of our current Maryland TAMS members, Tom Kotche, issued his own token in this series. He was in the service at the time and his token is listed in the Foreign section under Rota, Spain -"Honest Tom's New & Used Coins Rota, Spain" (#1139). Tom was also president of the Rota Stamp & Coin Club and had a token made for them (#1140). Another member, Curtis Judge, also issued a token from

Miami, FL (#366). Also, interestingly, some of these tokens were used in California as pickers ckecks for migrant workers in the vineyards.

When the Maryland Token & Medal Society prints our reference series in final, I hope to augment this reference with photographs of all the Maryland pieces which I have available. I also want to thank the Partick Mint and Mr. Jesse Patrick not just for providing myself and other collectors with these unique tokens and his great reference books; but for carrying on the tradition of the old token/die makers, many of whom we were blessed with here in Maryland. This is a scarce art and our hobby has been blessed with a unique collecting opportunity thanks to the Patrick Mint and Mr. Patrick - - the hobby owes him a debt of gratitude - - Thanks!

PATRICK MINT INFORMATION

Anyone wishing to order some of these tokens can write to:

The Patrick Mint
PO BOX 3486
Santa Rosa, CA 95402
(707-538-7485).

For example (if still available), 19 different Maryland tokens can be purchased for \$14.95 postpaid. Also, a new 1999 book describing the more than 1,100 tokens in this 1976-1979 series is available for \$19.95 (Call for information on P&H). It makes a great reference for all the states and the few Foreign tokens in the series. The book also lists and describes four other smaller series of tokens produced during this same time period by the Patrick Mint using the same obverse dies:

Great Events In The American Revolution: (50 different tokens) 1976 Indian Head Obverse, Mintage 1,000.

Great Americans: (50 different tokens) Independence Hall Obverse, Mintage 1,000.

Great Events In American Numismatics: (50 different tokens) Eagle On Shield Obverse, Mintage 1,000.

Automatic Musical Instruments & Their Makers: (50 different tokens) 1976 Indian Head Obverse, Mintage 1,000.

A MARYLAND TOKEN COMES HOME

I RECENTLY SUBMITTED THE HIGH BID ON A TOKEN IN THE NATCA ANNUAL AUCTION AND, AT FIRST GLANCE, NO ONE WOULD EVER FIGURE OUT WHY A TOKEN COLLECTOR FROM SALISBURY, MARYLAND WOULD WANT A LUMBER TOKEN FROM ALABAMA. WELL, THE NAME FIRST ATTRACTED MY ATTENTION – E.E. JACKSON, THIS BEING THE NAME OF A VERY PROMINENT SALISBURY FIGURE WHO BECAME THE GOVERNOR OF MARYLAND IN 1888 AND SERVED UNTIL 1892.

NOW, I ALREADY KNEW THAT E. E. JACKSON WAS IN THE LUMBER BUSINESS, BUT THAT WAS ALL I KNEW. IN RESEARCHING THE JACKSON FAMILY, I DISCOVERED THAT E. E. JACKSON HAD MARRIED ONE NANNIE RIDER. SHE HAD A BROTHER NAMED NOAH RIDER AND THE RESEARCH INTO HIS HISTORY REALLY CONFIRMED MY SUSPICIONS. NOAH'S OCCUPATION IS RECORDED AS "LOOKING AFTER HIS BROTHER-IN-LAW'S LUMBER INTERESTS IN ALABAMA". IT SEEMS THAT MR. JACKSON BOUGHT 140,000 ACRES OF OLD GROWTH PINE IN ALABAMA FOR 10 CENTS AN ACRE AND NOAH RIDER WAS SENT THERE TO PROCESS THE TIMBER. AS IT TURNED OUT, HE SET UP TWO LUMBER MILLS AND AROUND THESE MILLS DEVELOPED MILL TOWNS. THESE TWO TOWNS WERE NAMED AFTER NOAH RIDER- ONE BEING RIDERVILLE AND THE OTHER BEING THE NAME ON THIS TOKEN-RIDERWOOD.

SO, WITH A LITTLE PATIENT RESEARCH, I HAVE TRANSFORMED A FARAWAY LUMBER TOKEN FROM ALABAMA INTO THE CROWN JEWEL IN MY MARYLAND TOKEN COLLECTION. AND BEING ABLE TO TRACE IT'S PROVENANCE RIGHT BACK TO MY OWN SMALL HOMETOWN, MAYBE I GOT A BARGAIN AFTERALL.
